

Purchasing & Order Management

Make purchases & manage orders
in a single, easy-to-use interface.

By creating and dispatching orders in xtraCHEF, your team can stay on the same page regarding what was ordered from whom, when and at what price.

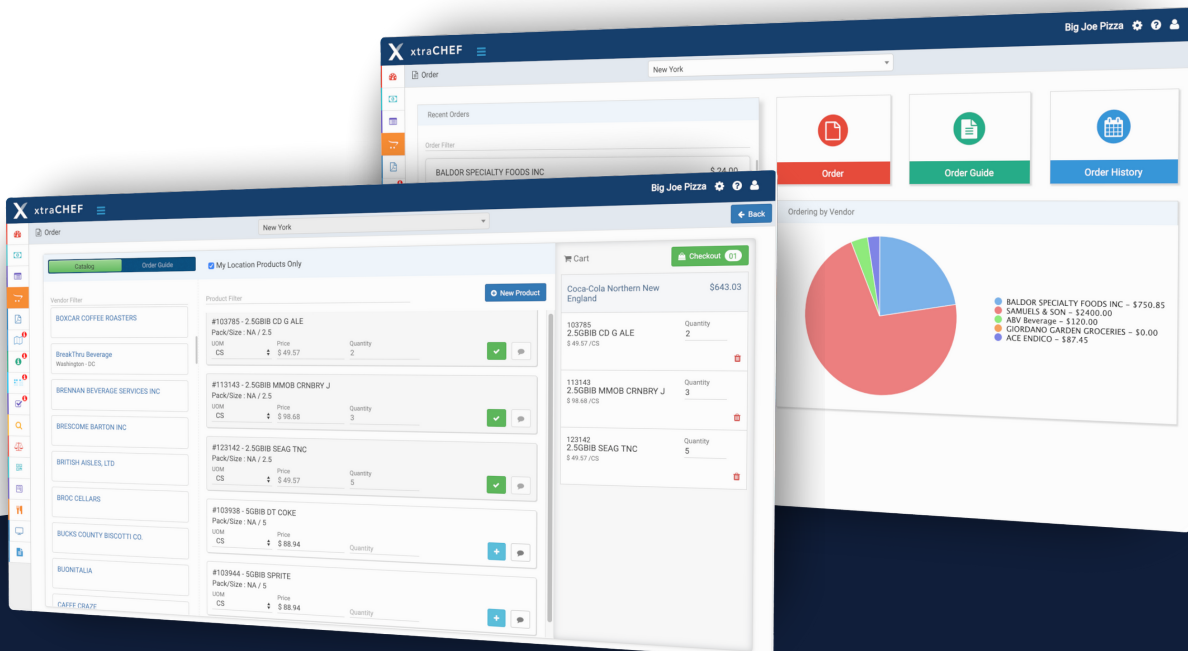

Save Time

Avoid Surprises

Monitor Status

Best practices in purchasing & procurement can be a piece of cake.

Dispatch Directly to Vendor

Email orders directly to your representative who can then easily acknowledge receipt of your order with a click of button.

Streamline & Schedule Orders

Create order guides for an easy way to group regularly purchased products. Simply set your guide and optionally schedule it to be sent automatically.

Use Bids to Get the Best Price

Solicit bid sheets from your vendors and upload them to xtraCHEF in order to compare prices and make your food costs more predictable.

Track Order History

Easily monitor the status and the history of an order using Order History. Track the order throughout its various lifespan.
