

AP Management

Automated, Accurate & Easy Accounts Payable

Combine the power of best-in-class recognition software, machine learning & our team of highly-trained quality control operators to get your team out of the office, off of the keyboards and focused on what they do best.

Reduce Labor Costs

Reduce labor costs and build processes that can scale by automating manual, error-prone, time-consuming tasks

Boost the Bottom Line

Grow profits by using data to drive vendor negotiations, identifying opportunities to lower food costs and optimizing purchasing habits

Improve Visibility

Drill down into COGS reporting to gain deeper insights into how costs are trending and how price changes impact profitability

Integrations

Export accurate, line-item details directly to third party systems & access invoices from those systems with just a click.

“

xtraCHEF allows our managers to spend more time focused on our guests and less time in the office managing paperwork.

”

- Mike Cramton, CFO of Metz Culinary Management

Digitize Documents in 4 Easy Ways

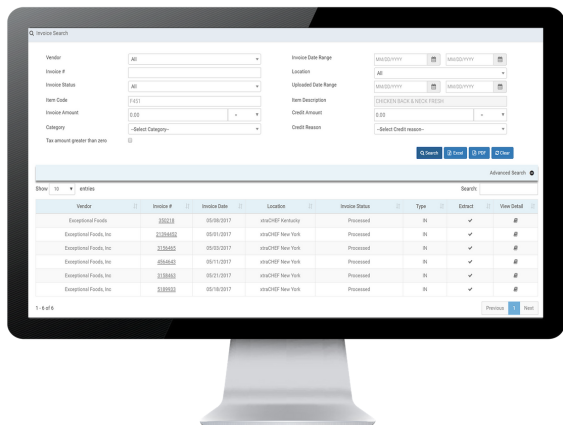

1. Simply auto-capture using our mobile app on any mobile device
2. Scan and upload / drag & drop
3. Email to a designated email address assigned to each location
4. EDI (Electronic Data Interchange) Feed Directly from Your Vendor

We accept ALL F&B invoices, receipts, utility / pest / linen / maintenance bills and more. Upload vendor statements & automatically reconcile statement details against invoices in xtraCHEF.

Visibility, Access & Control... ...Anywhere, Anytime

- Monitor Pricing of "Close Watch" Items w/ Price Tracker
- Configurable AP Approval Workflows that best fit your business processes
- Document Management Archive and robust search features make it easy to locate invoices
- Code & categorize an item only once & xtraCHEF identifies, codes & categorizes those items automatically, accurately every time going forward
