Restaurant Accounting...Automated

Do more, offer more, earn more...with less.

By digitizing invoices, automating manual data entry down to the line-item & drilling down into dynamic reports & dashboards, restaurant bookkeepers and accountants can deliver more value with less effort.

Let xtraCHEF do the dirty work of data extraction and analysis, while you serve up your clients with financial savvy to help your them flourish.

Streamline Your Internal Operations

No more wasted time or precious resources picking up, thumbing through, and manually coding and keying invoice data. With xtraCHEF, you watch your business grow as you serve double the clients in half the time.

Bill by the Value, Not by the Clock

By automating historically manual, time-consuming tasks, xtraCHEF not only saves you time but frees you to focus on delivering your clients more value. This allows you to price your services by your output and not by the hour.

Tools to Help You & Your Clients Grow

Imagine how many more restaurant clients you can serve if you only ever had to code a line-item once. Or, if you never had to file, store or access paper invoices. xtraCHEF gives you the tools to scale your practice without growing your team or your infrastructure.

Go Beyond Generic General Ledger Reporting

P&Ls alone offer restaurant operators limited insights into what's impacting their profitability. With xtraCHEF, you can combine the power & the simplicity of generic accounting systems with detailed analysis in xtraCHEF's easy to use reports & dashboards.

Focus on Insights...
Not Invoices

Scan, Snap a Pic or Email Documents
You or your clients can easily get documents into xtraCHEF in a way that aligns well with your current workflows.

Cloud-based Document Management
Store, Access & Manage Invoices, Receipts & Vendor Statements from anywhere, on any device w/ powerful search & discover feature.

Invoice Approval Workflows
Keep your clients engaged & informed w/ configurable invoice approval rules to ensure everyone's on the same page about payments.

Vendor Statement Reconciliation
Automatically reconcile periodic vendor statements against invoices and invoice amounts. Resolve discrepancies in a few clicks.

Keep Clients on Track w/Budgets
xtraCHEF leverages your clients' data to power declining budgets to help keep your clients on track and in business.

Ingredient Price Monitoring Alerts
Help your clients know when flucutating prices of key ingredients are impacting profits w/ proactive alerts & weekly digests.

Manage Orders & Inventory on Mobile
Operators can not only capture invoices but can place orders to vendors and manage their inventory from our app on iOS/Android

Point-of-Sale Integrations
Automatically integrate daily sales entries from the POS into xtraCHEF to get real-time Cost-of-Goods-Sold reporting

> xtraCHEF streamlined the entire accounts payable process for our clients.
>
> By removing the manual data entry and coding by line item, we have cut human errors down dramatically, saved hours of data entry each week, and increased the usefulness of our reporting.
